Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

ELECTRIC BATTERY ASSEMBLY AND METHOD OF MANUFACTURE

Examiner: Yuan

S.N. 10/694,922

Art Unit: 1745

October 30, 2006

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species:

I, Claims 1-8, drawn to an energy storage device comprising a case, an electrode assembly, a cover, a terminal structure, a gasket, an under cover insulator member and a washer.

II, Claim 9, drawn to an energy storage device comprising a case, an electrode assembly, a cover, a terminal structure and a fastening device.

III, Claims 10-15, drawn to an energy storage device comprising a case, an electrode assembly, a cover, and a plug.

IV, Claim 16, drawn to an energy storage device comprising a case, an electrode assembly, a cover, a terminal structure, and a plug.

V, Claims 17,18, drawn to an energy storage device comprising a case, an electrode assembly, and a cover.

VI, Claims 19-26, drawn to an energy storage device comprising a case, a rolled electrode assembly, and a cover.

VII, Claim 27, drawn to an energy storage device comprising a case, an electrode assembly, a cover, and an adhesive insulating film.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, none of the claims is generic.

Art Unit: 1745

3. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dah-Wei D. Yuan whose telephone number is (571) 272-1295. The examiner can normally be reached on Monday-Friday (8:00-5:00).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Patrick J. Ryan, can be reached on (571) 272-1292. The fax phone number for the organization where this application or proceeding is assigned is (571) 273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system.
